BULL'S SARSAPARILLA. To the Public.

HE introduction of DR. JOHN BULL'S unequalled SARSAPARILL, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Saraaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.
Twenty-six years since, Dr. Bull, then a boy, came

to Louisville, and was employed for a number of years In studying the business of an Apothecary, with Messrs, Byers & Batler, and the lamented L. George, Jr. After leaving the services of Dr. George, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of the city, and who was for many years a Sargeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made, Br. Ball was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla; and he then con-ceived the idea, and imaly fully determined (seventeen years suce) to introduce at some future period, for the consideration of the afflicted, a preparation of Saraaparilla. Since that time, his mind has been constantly em-

ployed in studying the ingredients, and experiment-ing to find a complete, sate, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted wth demonstrations of joy.— By close and unremitting study he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits com-pletely tested, he confidently appeals to the thousand certific ites of its worderful cures, and hence for its great superiority over al other simiar compounds. it is therefore a matter of no surprise, that the ques-tion is frequently asked: "IV by does Dr. Buil's Sarsuparilla continue to advance rapidly in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Though it is not required, yet this question is easily answered. Dr. Bul has not worked alone for pecuniary preferment ; gain has not been wha sole object; he has had a higher and a nobler aim constantly in view-that of releiving the suffering of his fellow-creatures. Unlike those who compoun a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their worthless mixture, in orderto accumulate wealth, Dr Bull has continued to use the costly ingredients, which his study and long experinnee enabled him to discover, and which has been of such invaluable service to suffering humanity .-He seeks to gain an unspotted reputation, not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his unmediate superin-tendence. For several years past, he has been daily experimenting in administering his mixture, without charge, to patients pronounced incurable; and, to his eternal fame be it regarded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained anch a wide spread reposition, and been established upon such a solid has sis, that he is firmly satisfied of its undoubted mer-its, and confidently challenges the combined Medical skill of Europe and merica to produce, out of Screaparilla, a superior preparation to his Fluid Ex-

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sareaparilla; but to publish the one quarter of the aston shing cures effected by the use of this truly greati Medicine, would require a volume of five handred pages, and the Doctor has to be satisfied by offoring the opinions of a few distinguished men, bo-lleving t at those opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparila a trial.

TESTIMONIAL.

REV. E. W. SEHON-REV. E. STEVENS. The following is a perbation copy of a certificate now in the passession of the proprietor of Hult's Sarsaparillis. Rev. E. W. Schon is widely and generally anown as an eloquent and accomplished Paster of the Methodist R. Church, and Rev. E. Sterenmin has been known as one of the most talented and realous members that the Kea-tness Conference could beast of for many years, and at this time is filling the high and responsible station of agent for the M. R. Book Concern. Can'the world produce better, or more satisfactory testimony in favor of any medicing ? Legaviers, May 20, 18

We have used John Butt's Sarsanarilla, and have known it in he used, with entire estimation; and we have no hesitation in stating that we believe it to be a asfe and valuable medical compound, and estended to produce much good, and relieve much nuffering, and therefore would cheerfully and most carresty recommend it to the afflicted.

ESTEVENSON:

Testimony like the following, renders superfluors all comments on the efficiency? Built Sarsaparilly:

From Dr. L. P. Yannest, Professor of Chemistry in the Louisvill Medical College:

"I have looked over the list of ingredients composing John Boll's Company Detract of Saraparills, and have no hesitation in easing that they form a rule compound and one that promises well in chronicalisms as in which it is applicable."
